

Licensing

Worksheets  
Everywhere

With licensing you can still recommend use of alternative tools, but the recommendation is not as powerful because there is not livestock siting ordinance to wrap them into.

CUP (over 500 AU or greater) with one ag zone

Do you want any rural residential areas to provide a transition between agriculture and urban areas?

CUP (over 500 AU or greater) with multiple ag zones

What are the multiple zones based on?  
Incorporated Buffer  
Sanitary District Buffer  
Water Quality Management Areas  
Concentrated Development Areas  
Road Capacity/Quality  
Soil Productivity

Other Agriculture Protection Tools

Recommend Major Future Land use Map and Policy Changes

Recommend Minor Future Land use Map and Policy Changes (e.g., rural residential areas around cities/villages)

|                                 |                     |
|---------------------------------|---------------------|
| Reverse Setbacks                | Clustering          |
| Conditional Use for Residential | Site Planning       |
| Minimum Lot Sizes               | Driveway Ordinances |
| Maximum Lot Sizes               |                     |
| Density Requirements            |                     |
